

# INTEGRATED ELEVATOR SCREEN

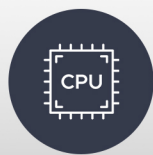

Powerful open-frame digital signage screen that supports 4K 60FPS. The configuration of the screen, choosing the display layout, configuring the elevator information (including arrows, fonts, colours, etc.), and uploading contents can all be done online. The screens can be operated both in an offline mode (updates by a secured USB stick) or in an online mode (fully remote management).

## KEY FEATURES

**Industrial Design  
(Metal Box)**

**Powerful CPU  
(Quad-core Cortex 1.8GHZ)**

**Wide Viewing Angle  
(178 Degree)**

**Remote  
Management**
